

## Using the Weather poster

### What to do

1. Show the Weather poster and introduce the topic. Refer back to the poster as you work through the topic. Add more information to the poster as students learn more words.
2. Find out what students already know about weather.
3. Use known vocabulary to talk about weather.
4. Photocopy the poster to:
  - cut up to make a jigsaw for students to put together collaboratively
  - use for a labelling activity – make a word list students can use
  - use the labelled pictures for sorting activities.
