

## 2.12 Spot the difference

**Topic:** Shapes

**Subtopic:** 2D shapes

**Activity type/skill:** Describing pictures

**Literacy focus:** Vocabulary

### Objective

- Produce target vocabulary in new contexts.

### What you need

- Student worksheet (see next page)

### What to do

1. Look at the student worksheet and explain that there are differences of detail in the two pictures.
2. Have students work in pairs – one covers the top picture and one covers the bottom picture. The students must identify the differences between their pictures by talking about them.

### Answers:

- Aerial position
- Plane/bird
- Tree/bush
- Front door
- Person on ladder
- Fence
- Windows
- Chimney

### Extending the activity

- Find other pictures, make a copy, alter different parts of each picture and play spot the difference.
