

4.33 Time puzzle

Topic: Measurement

Subtopic: Time

Activity type/skill: Crossword

Literacy focus: Vocabulary

Objective

- Understand more about the meaning of list words.
- Spell the words accurately.

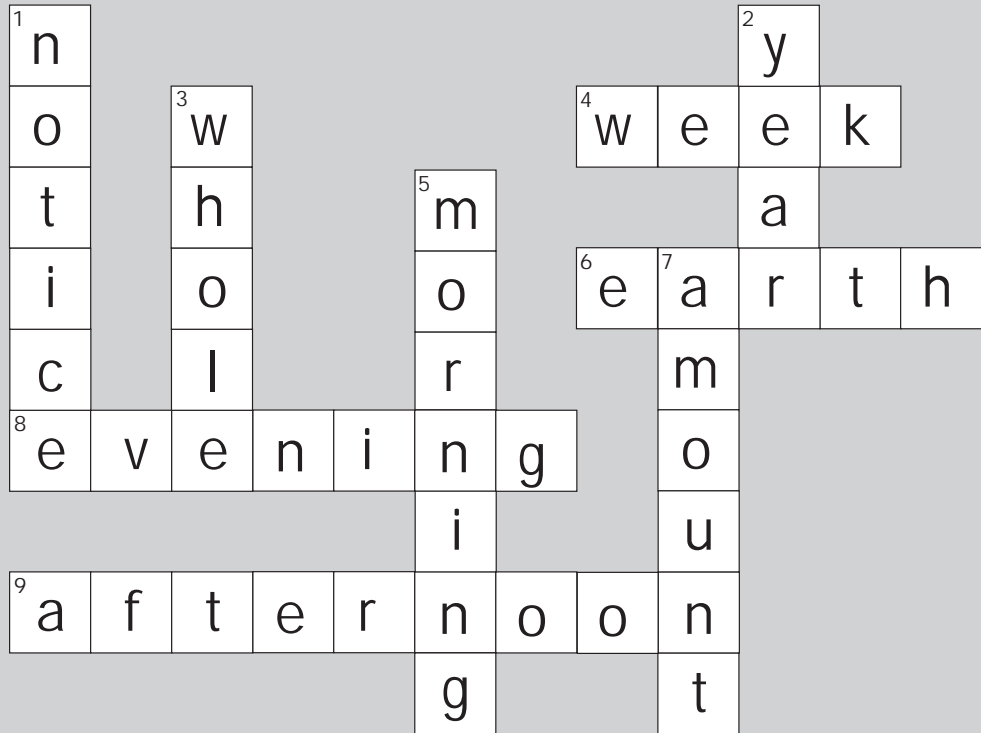

What you need

- Student worksheet (see next page)

What to do

1. Look at the student worksheet and explain that this is a reverse crossword where students must make up the clues.
2. Discuss one or two of the words in the crossword and make up clues as a group. Clues should be in the form of a defining sentence with an omitted word. For example, 'A _ _ _ _ has 12 months'. Look at crosswords in other topics for examples.
3. Have students produce the rest of the clues for the puzzle individually. Do not allow exact repetition of sentences from Activity 4.23, but similar sentences are fine.
4. Compare completed clues and write the clues the group thinks are best on the board. Draw the crossword grid on the board without the words and complete the puzzle as a group.

Activity thirty-three

Across

- 4 _____
- 6 _____
- 8 _____
- 9 _____

Down

- 1 _____
- 2 _____
- 3 _____
- 5 _____
- 7 _____
